

Brand Guidelines for

About Our Program

The Virginia Procurement Technical Assistance Center (Virginia PTAC) is a sponsored program of George Mason University. Headquartered in Fairfax, with offices in Charlottesville and Hampton, we serve businesses throughout Virginia. All centers provide counseling and services that help businesses do business with government at the Federal, State, and Local levels.

About Our logo

The bold and tall letters of PTAC can resemble solid columns of stability and trust. The arch and the lower portion of the letters form a bridge.

The curve of the arch along with its variable width stroke, softens and balances the boldness of the letters/ columns. It also may convey a horizon.

Logo Variations

If the logo is displayed at larger sizes then the phrase “Helping business do business with government” can be on one line. However, for smaller versions the tag line can be split in two as shown below.

Spacing Considerations

Keep at least a "V" length worth of space between the Logotype and other elements.

When using the text underneath the logo, it's best to leave about a "V" length worth of space between the elements.

Do Not...

X Don't change the colors of our logo not even a little

X Don't rotate our logo

X Don't stretch our logo vertical or horizontal

X Don't change our logo in any way

X Don't add drop shadows or any effects

X Don't place on dark or busy backgrounds or on top of text

Standards of the logo

- No alterations to the logo, do not alter the type face, the proportions or the graphic elements.
- Please refer to the color section to see the permissible colors for the logo.
- Logos are not to be used as watermarks or with any transparency.
- Make sure you refer to the clearance space for our logo specified in this manual.
- Make sure the logo is not too small in print or on electronic media. All text should be legible at a reading distance.

Typography

The typeface used for above
and below the PTAP logo is
NeutraText-Demi

It is recommended to use a serif or
sans serif typeface for printed material.
When in doubt check with us.

Typography for web

Open Sans

Steve Matteson

Apache License, version 2.0

Open Sans is a humanist sans serif typeface designed by Steve Matteson, Type Director of Ascender Corp. This version contains the complete 897 character set, which includes the standard ISO Latin 1, Latin CE, Greek and Cyrillic character sets. Open Sans was designed with an upright stress, open forms and a neutral, yet friendly appearance. It was optimized for print, web, and mobile interfaces, and has excellent legibility characteristics in its letterforms.
